

Road Worthiness Photo Management in AM-WIN

Are you required to take digital photos of all the vehicles you check for road worthiness and keep them for a minimum period of 7 years?

There is a quick and easy way in AM-WIN to keep these images on file with the registration of the vehicle and to have them easily accessible!!

Job item Pictures

Go to the Customers Menu, click on Job item file. The Job item Masterfiles screen will appear.

Job Item	Cust	Bilt to	Make	Model	EngineNo	ChassisN	Gp	FleetNo
2220DD	BROW01	BROW01	DAEWOO	LANOS	XDG123456789	XDG123456789	RET	FF34567

Once you have taken the picture on your digital camera you can download it to your computer. It is a good idea to save a new "Image" folder under your AMWINData1 folder directory. E.G. c:\amwin\data1\images.

Once this folder is created you can download all of your pictures into this folder.

From the Job Item Masterfiles you can allocate the picture from the images folder to the actual job item you have saved in AM-WIN. Here's How!

Job Item Picture allocation

Bring up the Job Item masterfiles screen. From the first tab, the Job item Details tab, you have two more smaller tabs near the Rev Check Button, on the right hand side of the screen, called Details and Pictures.

Job Item	Cust	Bilt to	Make	Model	EngineNo	ChassisN	Gp	FleetNo
2220DD	BROW01	BROW01	DAEWOO	LANOS	XDG123456789	XDG123456789	RET	FF34567
2220FF	BROW01	BROW01	ALFA ROMEO	1600				
333DFG	ABC.01	ABC.01	DAIHATSU	CHARADE G10	A22233344445556667	A22233344445556667	RET	F34314
345F1T	BROW02	BROW02	HONDA	CIVIC BREEZE				
466ASD	ACTI01	ACTI01	DAISUN	2008				
466FGG	GOLD01	GOLD01	NISSAN	NAVARRA Z24				
466NSW	YULK01	YULK01	TOYOTA	CORONA XT 130				
467FFG	GOLD01	GOLD01	NISSAN	NOMAD Z24				
604GGG	ABC.01	ABC.01	DAEWOO	LANOS	A222333444455566677888	A222333444455566677888	RET	F123456789

Click on the picture tab and that will bring up a new picture screen. From this screen click on the picture icon and this will bring up the Plant Image Screen.

On the bottom of this Plant Picture screen click on the picture button to browse through your windows explorer files until you click into your data1, images folder. Find the correct image you are trying to assign to this job item and select. The image will appear on the plant picture screen.

You can have up to six pictures stored against one job item file simply click on each tab and insert the picture files using the same steps outlined above. When you are finished loading the images, click on the OK button to save them into the job item files in AMWIN.

Job Item	Cust	By Group	EngineNo	ChassisN	Make	Model	FleetNo	Location
222DD0	BROW01	BROW01	DAEWOO		LANOS	1600		>DG123456789
222FF0	BROW01	BROW01	ALFA ROMEO					>DG123456789
333FG	ABC 01	ABC 01	DAIHATSU		CHARADE G10		A2223344445556667	A2223344445556667
345HT	BROW02	BROW02	HONDA		CVIC BREEZE	2008		
456ASD	ACT01	ACT01	DAFSUN		NAVARA Z24			
456FG	GOLD01	GOLD01	NISSAN		CORDONA XT 130			
456NSW	YULK01	YULK01	TOYOTA		NOMAD Z24			
457FG	GOLD01	GOLD01	NISSAN		LANOS		A22233444455566677880	A22233444455566677880
606GG	ABC 01	ABC 01	DAEWOO					

From that point on when you are scrolling down the Job item files you will be able to see the picture held of the vehicle on file quickly and easily.

Job item URL Links

There is also extra space in AMWIN to file lots more images, documents, work sheets etc. This can be done under the Job item URL Link found in the Job item Masterfile, under the Job item details tab look toward the bottom of the screen, above the warranty information.

From this URL link button, click into the Windows file browser to browse to your amwin\data1 folder. Here is where you can create a new data folder using the customer code details by right clicking your mouse, selecting New>folder and giving it the customer code.

Once the file is saved, you can then store whatever documentation you may have in relation to that customer or vehicle and keep it safe and easily accessed. Then simply type and save the directory link into the URL link in the Job item Masterfiles as shown below. To access the information stored there simply click on the Open button.
